

Coraya

(Speedboat)

Distance: 10 minutes by speed boat north from our jetty.

Description: Drift dive along the reef. Most of the time, there is a small current from north to south. The wall and the sand bottom are covered with many beautiful coral blocks.

Entrance backwards roll from the speedboat.

Flora and Fauna: Shoals of fusiliers and red tooth triggerfish are typical for this place. Beside this you can find scorpion fish, butterfly fish, anthias, grouper and many other colorful fishes.

Difficulty: Easy. Less current. Suitable for all diver levels, not for snorkelers.

Depth: 5 – 30 Meter
