

Erg Trombi

(Speedboot)

Distance: 15 minutes by speed boat north from our jetty.

Description: Erg Trombi is a big submerged rock. In this well protected area, hard coral could develop undisturbed and formed a fantastic underwater scenery. The sand bottom is covered from 13 until 18 meters with wonderful coral heads. You can surround the Erg and then cross to the main reef where you finish the dive. Entrance with backwards roll from the speedboat

Flora and Fauna: Moray eel, turtle, eagle ray, snapper, wrasses, fusilier, parrotfish, puffer fish and triggerfish are swimming between the wonderful hard and soft corals.

Difficulty: Easy, mild current. Suitable for all diver levels, no snorkelers.

Depth: 3 – 18 meter
