

Gamila

(Speedboat)

Distance: 10 minutes by speed boat south from our jetty

Description: Gamila is a fringing reef that starts at 5 meter and goes gradually down until 30 meter. Usually we start in the North and dive with the mild current to South. Along the reef, you can find many small coral blocks on a sandy bottom.

Entrance with backwards roll from the speedboat.

Flora and Fauna: Moray eels, barracuda, scorpion fish, wrasses, triggerfish, parrotfish, angelfish, goatfish and different kind of micro items.

Difficulty: Easy. Less current. Suitable for all diver levels, no snorkelers.

Depth: 8 -35 meter
