

Habili Marsa Alam

(Boat trip)

Distance: 55 minutes by bus and 35 minutes by boat south-east from Marsa Alam south from Port Ghalib

Description: A circular rock formation rising from the sea floor. It measures approximately 130 meter across. Around the Habili are many coral blocks in an average depth of 20 meter. A few pinnacles can be found close to the reef. The reef top is the most beautiful part with a wonderful landscape in depth from 2 to 5 meter. It is covered with hard and soft corals.

Entrance from the boat or drift dive from zodiac.

Flora and Fauna: Shoals of anthias, surgeonfishes, batfish, butterfly fish, puffer fish, boxfish, napoleons and stingrays. The reef top is full with hard and soft corals.

Difficulty: Middle, sometimes current. Possible surge near the reef top. Drift Dive, not for snorkelers and Scuba Diver

Depth: 2 – 20 meter
