

Marsa Eglā

(Bustrip)

Distance: 50 minutes by minibus in south direction

Description: The point of entry is behind a small hill in the north, with a connecting short cut over the reef top. We dive in the south direction into the bay following the wonderful coral garden on our right side. Inside the bay, you can dive in a sea grass meadow. Other option is to start from the beach and do the south side of the bay.

Flora and Fauna: Turtles, boxfish, “Anemone City”, scorpionfish, angelfish, grouper, wrasses, blue spotted ray and wonderful hard corals.

Difficulty: Easy, mild current. Suitable for all diver levels and snorkeler

Depth: 2 – 25 meter
