

Marsa Shouna

(Bus trip)

Distance: 15 minutes by minibus in south direction

Description: The bay is 360 meter wide and has a big sea grass meadow sloping from 2 m to 25 meter depth. Here you can dive on both sides of the bay and in the sea grass. There is no certain route to follow. The most interesting part is the way to the corners in the north and in the south. On both sides alternate sand and coral blocks and create a wonderful underwater landscape. In addition, the sea grass offers some special encounters especially with big animals. Entrance from the beach.

Flora and Fauna: Indian mackerel, turtles, crocodile fish, stonefish, wrasses, parrotfishes, nudibranch, anthias, surgeonfish, unicorn fish and hard corals

Difficulty: Easy, no current. Suitable for all diver levels and snorkelers.

Depth: 1 – 25 meter
