

# Marsa Masdoda

(Bus trip)

**Distance:** 10 minutes by minibus in north direction.

**Description:** The canyon and cave entrance takes about 7 to 10 minutes to pass and reach the outside coral reef. Along the fringing reef, we dive the south side where some small coral blocks are scattered over the sandy ground. Here you can find some cleaning stations. Entrance from the beach.

**Flora and Fauna:** In the dark shadow areas, you can find small hidden marine life. Outside you find scorpion fish, triggerfish, crocodile fish, grouper

**Difficulty:** Easy/medium. Suitable for all diver levels, booties required, not for snorkeler.

**Depth:** 2 – 20 meter
