

Habili Umm Elros

(Speed boat trip)

Distance: 15 minutes by speed boat south from our jetty.

Description: Big coral garden northwards of Marsa Umm Elross. Most time we dive with the mild current from North to South.

As the area of the coral garden covers more than that of a football ground, you can dive criss-cross across the gardens. Close to the fringing reef the depth is about 10 meters sloping down to 25 meters in direction of the open sea.

Entry with backwards roll.

Flora and Fauna: Rays, stonefish, barracudas, crocodile fish, wrasses, tuna, surgeonfish, parrotfish and clownfish.

Difficulty: Very mild current. Suitable for all diver levels, not for snorkelers.

Depth: 10 – 25 meter
