

Dolphinhouse

(Boat trip)

Distance: 55 minutes by bus and 45 minutes by boat in south direction

Description: The Dolphin House is also called Shaab Samadai and is one of the most popular dive sites in Marsa Alam. It is an offshore reef with a lagoon where a pod of dolphins live. The reef forms a horseshoe shape and is 1,4 km long and 1 km wide. It is not allowed to dive inside the lagoon. On the western edge of the lagoon is a beautiful cave-like canyon. You can choose between swim-throughs and several pinnacles with great coral formations.

Entrance from the boat platform or from the zodiac.

Flora and Fauna: The reef is home of highly diverse range of flora and fauna, hard and soft coral, barracuda, anemones, angelfish, wrasses, surgeonfish, pufferfish and of course the dolphins.

Difficulty: Easy, less current. Suitable for all diver levels and snorkelers.

Depth: 6 – 18 meter
